Bernardo Javier del Bosque Garza

BI & Data Engineering Lead | Monterrey, Mexico

PROFILE

End-to-End Business Intelligence and Data Engineering Lead with 20+ years of experience (9+ years in people management) delivering scalable enterprise analytics across multi-cloud ecosystems, bridging backend SQL/ETL engineering with executive visualization.

PROFESSIONAL EXPERIENCE

Accenture – BI Engineer Specialist | Jan 2026 – Present | Monterrey, Mexico

- Architect end-to-end data engineering lifecycles and enterprise analytics across Finance, Order-to-Cash, and Procure-to-Pay.
- Automate SAP extraction pipelines and multi-cloud workflows (SQL Server, BigQuery, Power BI) for executive decision-making.

Neoris – Data & Analytics Consultant (Marc Anthony Group) | 2024 – 2025

- Deployed executive Power BI dashboards for operations, supply chain, and finance, reducing reporting turnaround by 40%.
- Implemented Row-Level Security (RLS) and integrated APIs, Jira, and ERP sources supporting 300+ enterprise users.

Neoris – Power BI Developer / Data Engineer (CEMEX) | 2023 – 2024

- Delivered end-to-end BI solutions and ETL dataflows for global operational KPIs, optimizing models for 30% faster performance.

GTCX (formerly Global Telesourcing) – Analytics Team Manager / BI & Data Developer | 2009 – 2023

- Led the Analytics Team owning full-cycle data engineering (SQL architecture, ETL pipelines), client/internal reporting & Power BI.
- Engineered automated SQL/ETL payroll systems, real-time DNC compliance workflows, and an enterprise agent intranet portal.
- Directed global BI governance, executive KPI strategy, and compliance under PACE SRO and PCI standards.
